Other information regarding this event:

*Burt Reissig, our past PPLEA president had a stroke and uses this Riding Clinic for his therapy. It is very good therapy for spinal injuries and head traumas. Riding the horse and the movement helps the muscles in the spine remember what it forgot before the injury. Not only does it help the body, but the horses have some kind of magical healing energy. I think its just plain **LOVE***

Another Mule lover friend, Gene Schilling passed away a few weeks ago and the club would also like to honor him in the event.

In honor of these people it was approved to donate \$100.00 to PPTRC.

It was also approved by the members to donate \$100.00 to the event to help cover cost of expenses for the event. .

It was also approved by the PPLEA to use the PPLEA checking account to keep track of the event funds, and distribution of proceeds to the PPTRC and expenses and awards.

Come on mule friends; let's just have a fun day!!!!!! We miss doing those!!!!

(From Jeff) Directions: Highway 24 West from Colorado Springs to the town of Divide. Turn left (south) towards Cripple Creek and go approximately 5.3 miles and there will be a fork in the road. Main road is to the left and the fork to take goes right. That road is partially paved and part dirt. Follow it for Approximately 1.9 miles. You will have just crossed an old style small cement bridge and there will be a turn off to the right. I think that there is still a wildlife sign that says Dome Rock State Wildlife area. All size trailers can make this but swing wide with the larger trailers. Have your truck in low gear and proceed down the short hill and park in the left hand lot, space permitting. It will hold about 15 trailers. Bring a lunch, drinks and snacks and camera. We can ride for 3-5 hours depending what people want. Not a technical or hazardous ride at all. Lots of beautiful views. Ready to ride at 10:00 a.m.. There is lots of drinking water for the animals in the parking lot and on the trail. Laugh of the day:

Zack and his mule were walking down the road when one of Zack's friends drove up and offered him a ride to town. Zack got into the truck while his mule ran along behind. The mule was right in back of them as they reached 55, and stayed with them as they sped up to 70.

I'm worried about your mule," said the driver. "his tongue's hanging out."

"Which way?" asked Zack

"Left," his friend said.

"Well, stay in this lane – he's about to pass."
